

Flamenco

Fusto: struttura portante in legno massello di abete con parti di riempimento in particelle di agglomerato, ricoperto in poliuretano t21 accoppiato con vellutino.

Imbottitura seduta: cuscini in poliuretano espanso densità 30/s indeformabile, ricoperto da ovatta acrilica gr. 400/mq

Imbottitura schienale: cuscini in poliuretano espanso ricoperto da ovatta acrilica gr. 400/mq.

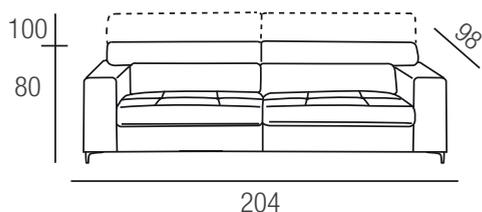

Rivestimento: NON sfoderabile

Versione letto: NON disponibile

Piede di serie: in metallo cromato come foto h. cm. 8.

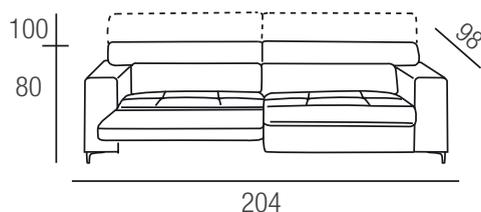

Meccanismo movimento relax: il meccanismo di distensione relax è basculante ed è possibile fornirlo su ogni seduta con adiacente bracciolo. Le funzioni sono infatti attivabili da due semplici bottoni posti sul lato interno del bracciolo che deve essere collegato alla corrente elettrica per poter funzionare.
